

# Trailmarker EHS

Trailmarker Ltd, a multi-disciplinary environmental health and safety consulting firm, was founded as Shafer Environmental Associates, Ltd., in 1988. The name was changed in 2003. Over the past 20+ years, the firm has worked with non-profit groups, small businesses, and Fortune 500 corporations in a variety of capacities including: EPA and OSHA regulatory compliance activities, permit preparation, hazardous waste management, environmental site assessments, spill response support, Superfund site investigation and remediation, UST closures, industrial hygiene surveys, safety program development, wetland delineation, asbestos and lead paint inspections, radon measurement and training.

We have also worked and completed projects with the U.S. Environmental Protection Agency, Army Corps of Engineers, Pennsylvania Department of Environmental Protection, California Department of Health Services (CA EPA), Washington Department of Ecology, New Jersey Department of Environmental Protection, U.S. Department of Energy.

Training courses developed and presented by our staff have been offered by Rutgers University and the Pennsylvania College of Technology.

*Since 1988*

## P.D. Shafer III, CHMM

Dave Shafer holds an M.S. in Environmental Science from Drexel University. Since 1980 his professional experience has been built on the practical application of environmental health and safety knowledge and skills in the fields of hazardous waste site activities, emergency response, construction and industrial operations. Shafer continues to expand his expertise regarding hazardous chemicals and materials. Since 2004 he has completed training in DOT/IATA Hazardous Materials Transportation, Clandestine Laboratory Safety and Operations, Health Care Facility Infection Control, FEMA EMI Professional Development Series and the NJDHSS 40 Hour Bioterrorism Preparedness Training Program. He has also completed the required training and received authorization from OSHA to teach the 10 and 30 hour Outreach Training Courses for both the Construction Industry and General Industry.
